<b>Protective film</b>				
<b>MonoLam Laminate gloss</b>	High quality finishing and long-lasting protection of indoor and up to 2 years outdoor graphics	High quality monomeric 2-year laminate with manufacturer's guarantee! Top finishing solution: colourless PVC film, glossy finish and highly transparent, reliable acrylic adhesive on a silicone-coated liner for perfect handling – lean 70 mic., lean price.	70 mic - 88.0 cm (35') - 50.0 m 70 mic - 104.0 cm (41') - 50.0 m 70 mic - 137.0 cm (54') - 50.0 m 70 mic - 155.0 cm (61') - 50.0 m	19327894 19792263 11500401 19248614
<b>MonoLam Laminate matt</b>	High quality finishing and long-lasting protection of indoor and up to 2 years outdoor graphics	High quality monomeric 2-year laminate with manufacturer's guarantee! Top finishing solution: colourless PVC film, matt finish and highly transparent, reliable acrylic adhesive on a silicone-coated liner for perfect handling – lean 70 mic., lean price.	70 mic - 104.0 cm (41') - 50.0 m 70 mic - 137.0 cm (54') - 50.0 m 70 mic - 155.0 cm (61') - 50.0 m	19464228 11728109 19233351
<b>FantasTac UV Protective Laminate gloss</b>	Finishing and protection of indoor and also short-term outdoor LFP graphics	THE basic UV protective film for use on a large number of inkjet media. Whether photo paper, poster paper, polyester or PVC: World Print FantasTac finishes and protects lie-flat graphics securely and reliably. With a water-based adhesive, making it suitable for indoor applications.	80 mic - 104.0 cm (41') - 50.0 m 80 mic - 137.0 cm (54') - 50.0 m 80 mic - 155.0 cm (61') - 50.0 m	14464367 16285379 13463947
<b>FantasTac UV Protective Laminate satin</b>	Finishing and protection of indoor and also short-term outdoor LFP graphics	THE basic UV protective film for use on a large number of inkjet media. Whether photo paper, poster paper, polyester or PVC: World Print FantasTac finishes and protects lie-flat graphics securely and reliably. With a water-based adhesive, making it suitable for indoor applications.	80 mic - 104.0 cm (41') - 50.0 m 80 mic - 137.0 cm (54') - 50.0 m 80 mic - 155.0 cm (61') - 50.0 m	14370940 16829601 13398491
<b>FantasTac UV Protective Laminate satin matt</b>	Finishing and protection of indoor as well as short-term outdoor LFP graphics	THE basic UV protective film for use on a large number of inkjet media. Whether photo paper, poster paper, polyester or PVC: World Print FantasTac finishes and protects lie-flat graphics securely and reliably. With a water-based adhesive, making it suitable for indoor applications.	80 mic - 104.0 cm (41') - 50.0 m 80 mic - 137.0 cm (54') - 50.0 m 80 mic - 155.0 cm (61') - 50.0 m	14496634 16688511 13364058
<b>HighProtection Laminate satin matt</b>	Top laminate for high quality finishing and long-lasting protection of outdoor graphics	Designed as the perfect finishing series for all lie-flat LFP graphics. Three surfaces (gloss, satin matt, crystal sand) offer maximum scope for different designs with extreme UV block, scratch resistant surface, incorporated optical brightener and the particularly reliable colour neutrality. With a solvent-based adhesive, making it also suitable for many outdoor applications.	75 mic - 88.0 cm (35') - 50.0 m 75 mic - 104.0 cm (41') - 50.0 m 75 mic - 137.0 cm (54') - 50.0 m	13812995 13637059 16851854
<b>UltraHighProtection Laminate gloss</b>	Top 3 year laminate for high quality finishing and lasting protection of lie-flat graphics.	Perfect finish series developed for finishing applications and suitable for prints produced with UV cured inks. Three surface finishes (gloss, satin matt, crystals sand) offer maximum design versatility.	75 mic - 88.0 cm (35') - 50.0 m 75 mic - 104.0 cm (41') - 50.0 m 75 mic - 137.0 cm (54') - 50.0 m 75 mic - 154.0 cm (60') - 50.0 m	10355304 10028751 10659308 10081652
<b>UltraHighProtection Laminate matt</b>	Top 3 year laminate for high quality finishing and lasting protection of lie-flat graphics.	Perfect finish series developed for finishing applications and suitable for prints produced with UV cured inks. Three surface finishes (gloss, satin matt, crystals sand) offer maximum design versatility.	75 mic - 88.0 cm (35') - 50.0 m 75 mic - 104.0 cm (41') - 50.0 m 75 mic - 137.0 cm (54') - 50.0 m 75 mic - 154.0 cm (60') - 50.0 m	10552176 10654748 10401203 10794653
<b>UltraHighProtection Laminate crystal sand</b>	Top 3 year laminate for high quality finishing and lasting protection of lie-flat graphics.	Perfect finish series developed for finishing applications and suitable for prints produced with UV cured inks. Three surface finishes (gloss, satin matt, crystals sand) offer maximum design versatility.	75 mic - 88.0 cm (35') - 50.0 m 75 mic - 104.0 cm (41') - 50.0 m 75 mic - 137.0 cm (54') - 50.0 m 75 mic - 154.0 cm (60') - 50.0 m	10193092 10485281 10874376 10004229
<b>2D Laminate gloss</b>	Polymeric, glossy protective laminate for finishing flat and slightly curved surfaces	Specially developed for safe, colourless protection and finishing of high quality, slightly curved applications. It is best for self-adhesive sandwiches with polymeric vinyls (e.g. World Print 2D Smart Apply). World Print 2D Laminate gloss is highly weather and scratch resistant, therefore making it suitable for reliable long-term outdoor applications. The product is long term dimension stable, also under adverse conditions.	75 mic - 106.7 cm (42') - 45.7 m 75 mic - 137.0 cm (54') - 45.7 m 75 mic - 152.0 cm (60') - 45.7 m	10096410 18240386 18491437
<b>2D Laminate satin matt</b>	Polymeric, semi-matte protective laminate for finishing flat and slightly curved surfaces	Specially developed for safe, colourless protection and finishing of high quality, slightly curved applications. It is best for self-adhesive sandwiches with polymeric vinyls (e.g. World Print 2D Smart Apply). World Print 2D Laminate satin matt is highly weather and scratch resistant, therefore making it suitable for reliable long-term outdoor applications. The product is long term dimension stable, also under adverse conditions.	75 mic - 104.0 cm (41') - 50.0 m 75 mic - 137.0 cm (54') - 45.7 m 75 mic - 152.0 cm (60') - 45.7 m	10176258 18472954 18804553
<b>3D Laminate gloss</b>	Protection and finishing of 3D graphics, e.g. vehicle wraps	Specially developed for demanding applications. The only wafer-thin (50 mic.) PVC film is easy to draw into crimps and over rivets.	50 mic - 137.0 cm (54') - 45.7 m 50 mic - 152.0 cm (60') - 45.7 m	18821987 18689851

Media	Application	Description	Size	Code
<b>3D Laminate matt</b>	Cast protective laminate on a paper carrier for complex surface wraps, print finishing	Specially developed for high quality surface wraps. The only wafer-thin (50 mic.) PVC film has anti-static properties and is easy to draw into crimps and over rivets. Best in combination with our World Print 3D SmartApply.	50 mic - 137.0 cm (54') - 45.7 m 50 mic - 152.0 cm (60') - 45.7 m	18210247 18966428
<b>Free Laminate</b>	PVC-free laminate for environmentally friendly finishing of films for flat and slightly curved surfaces.	PVC-free laminate with a glossy surface to protect and finish your applications.	70 mic - 137.0 cm (54') - 50.0 m	11712736
<b>InSightOut Laminate</b>	Complementary finish for all World Print InSightOut applications, especially window surfaces: public transport, shop fronts etc.	Finishing and protection for self-adhesive InSightOut designs. Highly transparent, water and dirt- repellent, wafer thin – but extremely scratch-resistant. In combination with InSightOut Vinyl approved for use on public transport through the General Design Certification (ABG) of the German Federal Motor Transport Authority.	50 mic - 137.2 cm (54') - 25.0 m	18840669
<b>FloorGraphics Laminate</b>	Protective laminate for floor advertising with non-slip properties according to R9	Anti-slip, profiled laminate for protecting, finishing and making floor graphics safe.	100 mic - 104.0 cm (41') - 50.0 m 100 mic - 130.0 cm (51') - 50.0 m	19006678 19245860
<b>Street Laminate</b>	For short and medium-term applications on streets, pavements, car parks or tarmac areas.	Is designed for use in combination with World Print Street Vinyl on rough indoor and outdoor surfaces and has impressive resistance to scratches and footsteps.	125 mic - 137.0 cm (54') - 25.0 m	10525318
<b>Double-sided Self-adhesive</b>				
<b>Universal Mountingfilm</b> 	Transparent mounting film for fine art, posters, presentations of Kappa, Dibond etc.	The nice and simple product solution: double-sided, permanent self-adhesive polypropylene film – use where you want to mount long-lasting graphics on a carrier panel. Universal Mountingfilm is easy and clean to use and offers reliable adhesion by means of an environmentally friendly acrylic adhesive.	50 mic - 104.0 cm (41') - 50.0 m 50 mic - 137.0 cm (54') - 50.0 m 50 mic - 155.0 cm (61') - 50.0 m	14401332 16323945 14419001
<b>OptiClear UV Mountingfilm</b> 	Adhesive film for applying prints onto glass and acrylic panels or lightboxes	Double-sided self-adhesive, highly transparent film with UV protection for applying prints to glass and acrylic panels or lightboxes. For indoor and outdoor applications. Permanent adhesive on one side (for applying the print) and removable, solvent-based acrylic adhesive on the other (for application to glass, for example). The carrier material between the two adhesive layers is made of polypropylene.	30 mic - 105.0 cm (41') - 50.0 m 30 mic - 153.0 cm (60') - 50.0 m	17114941 17442067
<b>Liquid laminate</b>				
<b>LiquidPower Guard</b>	Self-adhesive vinyls, banners, outdoor vehicle advertising and lorry curtains up to 5 years	High quality, gloss solvent-based liquid varnish for finishing graphics produced using UV-curing or eco/mild and real solvent inks. Robust protection for demanding applications up to five years.	5 US Gallonen / 18 Liter	19502289

Status: [12/2012]
